OBJECTIVE

Motivated second-year Bachelor of Computer Science student seeking opportunities to apply strong skills in Java, Spring Boot, full-stack development, and database management. Eager to contribute to real-world projects while expanding technical expertise in modern backend technologies.

TECHNICAL SKILLS

Programming Languages: Java, C/C++, Python, JavaScript.

Web (Client and Server) Frameworks: React.js, Node.js (Express), Spring Boot (Java).

Databases: MySQL, MongoDB, PostgreSQL.

Libraries & Tools: Shadcn UI, Tailwind CSS, Git, Vite, Vercel, Docker, AWS (EC2 and S3), Firebase, Apache Kafka.

Others: Automation (N8N) and Prompt Engineering

PROJECTS

Interview.io (AI agent mock interview WebApp)

Dec 2025 - Present | [link](#)

- Developed an AI Web Call based Mock interview application for job seekers which also has ATS and Quiz features.
- Integrated Vapi AI agent web SDK for real time communication between interviewer and interviewee.
- Integrated Gemini and Open Router APIs for real time feedback support.
- Used Add-on tools including AWS (EC2 and S3), Firebase for Authentication and authorization, Vercel, Shadcn, Tailwind CSS, and OCR tool for text extraction.

Fitness Tracker WebApp

Oct 2025 – Nov 2025 | [link](#)

- Built a Spring Boot Microservice based architecture backend system in which individual services interact with each other using Web Client.
- Implemented Authentication using Key Cloak and added API gateway instead of reaching out any individual service.
- Integrated Gemini API for AI feedback along with MySQL and MongoDB databases as per data sequence.
- Used Spring Eureka server as a service registry, Apache Kafka for Asynchronous communication.
- Implemented frontend using ReactJS, tailwind CSS, and Shadcn as a UI tool.

Image Explorer WebApp

Nov 2025 – Dec 2025 | [link](#)

- Built a React (tailwind CSS, Shadcn UI) based frontend WebApp in which users can explore images, react, and comment on them.
- Implemented pagination to ensure app supports infinite image scroll feature.
- Integrated Unsplash API for images, firebase for authentication and frontend to database connection.
- Used Zustand library for global state management and real time reactions and comments of other users without re-rendering page using firebase snapshot query.

EDUCATION

Indira College of Commerce and Science

BSc in Computer Science

Pune, MH, India

July 2024 – June 2027

CERTIFICATIONS

- Amazon (Coursera) Certified Full Stack Developer with hands-on experience in React, Spring Boot, and SQL-based data handling.

EXTRA ACTIVITIES / ACHIEVEMENTS

- Winner at an intercollegiate technical fest for solving the highest number of DSA problems under time constraints.
- Runner-up in Let's Upgrade's development hackathon for building a functional solution in a competitive team environment.
- Finalist in the NxtWave x OpenAI Academy AI innovation hackathon, selected among top teams for an AI-driven project.
